German Residents Of Yugoslavia Are All Ordered Home

Germans Apparently Convinced Nation Will
Not Offer Acceptable Compromise To
Demands Of Axis

By LEON KAY
BELGRADE, Yugoslavia, March 29.—(RUP)—German families started leaving Yugoslavia today for Germany. A special Danube steamship was chartered and arrangements were made for it to sail Monday after the German families had been assembled.

By ROBERT ST. JOHN
BELGRADE, Yugoslavia, March 29.—(AP)—The German legation today ordered even German newspapermen to leave Yugoslavia in the apparent conviction the new Yugoslav government will offer no acceptable compromise to Axis wishes.

The British legation, apparently expecting Yugoslavia will become a theatre of war, ordered women and children to leave.

BRITISH SLASH AT RETREATING ITALO FORCES

Attempt To Take Capital
Of Eritrea Before De-
fence Set Up

CAIRO, Egypt, March 29.—(AP)—British mechanized forces were reported today to be slashing at the heels of Italian troops retreating from Cheren in Asmara in an effort to take the Eritrean capital before new defensive positions can be organized.

British advance units were said to be passing hundreds of exhausted Italians along the smooth 40-mile road leading from mountainous Cheren to the capital, leaving them to surrender to larger British forces moving up more slowly.

Informed sources said the Fascist troops, including crack units of Grenadiers, Bersaglieri and Alpini, who held out at Cheren for seven weeks, were given no time to stop at any of several places along the road for supplies.

In Ethiopia, British forces were believed taking up positions preparatory to a smashing assault on Dire Dawa, whose fall would isolate the Italian desert base of the Ethiopian capital by severing the Addis Ababa-Dire Dawa line.

The British forces moved north for the attack from the walled town of Harar, 40 miles away, whose fall was announced two days ago.

Ration Horsemeat
VICHY, March 29.—(AP)—Horsemeat was added to the French food ration list today. Other meats have been rationed for months.

Canadian Tank Men Wrestle Metal Monsters

The pair of sturdy soldiers shown in the turret of this tank are typical of the men who wrestle the metal monsters over the snows of Camp Borden. "Hell for leather" fighting men from all over Canada and the United States, they eagerly await the day when they will ride for Canada in the "big push."

NAZI CIRCLES ISSUE THREAT TO YUGOSLAVS

Must "Bear Responsibility"
If Axis Pact Is Not
Ratified

By JOSEPH W. GRIGG, JR.
BERLIN, March 29.—(UP)—Authorized German quarters said today that if certain forces in Yugoslavia reject the three power pact, then they must exclusively bear responsibility therefore.

A spokesman said Vlado Vukotich, German minister to Yugoslavia, was issued yesterday a statement in which he said that the German government does not intend to permit its policies to be decided by terroristic street mobs in Belgrade.

A spokesman said Vlado Vukotich, German minister to Yugoslavia, was issued yesterday a statement in which he said that the German government does not intend to permit its policies to be decided by terroristic street mobs in Belgrade.

Such operations were not taken even in Belgium and the Netherlands, he said.

Equally as significant of the Nazi attitude was the order of German Commercial Air Line, Lufthansa, cancelling all flights over Yugoslav territory.

The Yugoslav government suspended traffic of German barges and other craft on the Danube river.

Military operations took on a new significance in Belgrade, the Yugoslav general staff conferred with the German minister, Viktor von Heiden, German sources said they sought to smooth the difficulties.

3 AXIS SHIPS ATTEMPTING TO RUN BLOCKADE

RIO DE JANEIRO, Brazil, March 29.—(AP)—Three Axis merchantmen left Brazilian ports last night and early today in an apparently re-organized effort to penetrate the British blockade.

The German freighter Dresden, 3,500 tons, had not been reported for 21 days after sailing from Santos last night. She had a crew of 100.

Today's War Moves

By J. W. T. MASON
British Editor Press War Expert
Exclusive to Edmonton Bulletin

ANNOUNCEMENT today from London of a naval battle in the eastern Mediterranean presumably indicates an effort by the Italian navy to interrupt the movement of British troops and supplies into Greece.

Since the British began conveying men and material across the Mediterranean and through the Aegean Sea in an uninterrupted flow, there have been reports that Italy would try to interfere with this action, but only now does it seem that the Italians may have set forth on this adventure.

The London report that the units of the Italian fleet scattered when challenged by the British indicates that the British were in the lead.

DEVELOPMENT OIL RESOURCES IS ENCOURAGED

Province Will Not Enter
Business, Hon. N. E.
Tanner States

There is no intention on the part of the Alberta government of going into the oil business, but as leaders of the people's interest in the vast petroleum resources, it does intend to encourage and stimulate development of these resources in every way possible, consistent with its trust, asserted Hon. N. E. Tanner, minister of lands and mines.

Mr. Tanner expressed this view in a statement made at a meeting of the Alberta Petroleum Association held at Calgary last Tuesday, when discussion took place on pending legislation which will affect the oil business.

Particular attention was directed by Mr. Tanner to Section 24 of the Petroleum Act, which gave some encouragement to the oil business.

FURTHER MEASURES
Further meetings with oil men are to be held from time to time, he said, to discuss further measures under consideration by the government for fostering and stabilizing the oil industry.

He then gave the following explanation of the two bills mentioned: Bill 39, which is an enabling act for the licensing of oil exploring parties is designed solely to permit the government to make a reasonable degree of supervision over exploratory work so that interference with the oil business is avoided.

YUGOSLAVS AT CADOMIN SEND PLEA TO KING

Urges Balkan Nation To
Strand Firm, Join
Democracies

Exclusive to Edmonton Bulletin
CADOMIN, Alta., March 29.—A meeting of the Yugoslav Canadian Association here Friday forwarded a cablegram to King Peter of Yugoslavia urging the title Italian nation to fight against dictatorial tyranny and to stand with the democracies in the battle for freedom.

The cablegram said in effect that though centuries of strife and war against those who seek to dominate the world have brought little result, the "supreme moment of our history" has brought the need for independence and freedom which is the heritage of the Yugoslav nation.

"Today when the herds of dictators again threaten to enslave and to bring slavery to the world, we, the Yugoslavs, demand that you, King Peter, should only accept a compromise which would mean the surrender of your nation to the dictators."

The cablegram said that the Yugoslav nation is now in a position to stand with the democracies in the battle for freedom, and that the Yugoslav nation is now in a position to stand with the democracies in the battle for freedom.

The cablegram said that the Yugoslav nation is now in a position to stand with the democracies in the battle for freedom, and that the Yugoslav nation is now in a position to stand with the democracies in the battle for freedom.

British Navy, Greek Warships, Royal Air Force Take Part In Great Assault On Italo Fleet

Rafts With Italian Survivors Sighted At Sea
After Battleship, Cruisers and Destroyer
Hit In Big Sea Engagement

LONDON, March 29.—(CP)—The Admiralty announced tonight "it may be assumed" that at least one Italian warship was sunk in a battle in the eastern Mediterranean.

An Admiralty communique on the engagement said: "Further information of the naval action, in the eastern Mediterranean is not yet available, but rafts containing Italian survivors have been reported this morning by our aircraft. It may therefore be assumed that at least one Italian ship has been sunk."

Earlier the Admiralty had reported another of Mussolini's heaviest battleships, a number of cruisers and a destroyer damaged.

Littorio Class Battleship Is Damaged
Assuming that the two Italian battleships which were under construction last year have been put in service, a spokesman said this left Italy with only two capital ships.

First announcement telling of the sensational climax of the long cat-and-mouse game the British fleet has played with the Fascists in "Mare Nostrum" said "it appears that so far at least one Littorio class battleship (Italy's newest) has been damaged and that two enemy cruisers are very severely damaged."

Then came an R. A. F. communique from Cairo, telling of a swoop on Italian warships in the Ionian Sea between Italy and Greece in which hits were scored on two cruisers and a destroyer.

Continuing Action Began On Friday
Apparently all this was one continuing action which began yesterday and still was in progress today, for the Admiralty credited the R. A. F. and the Greeks with participation in continuing the action in the eastern Mediterranean.

Britain already had badly smashed one of Italy's two battleships of the Littorio class. When the two Italian cruisers had been hit by the navy's guns and two more by R. A. F. bombs were close to the Italian coast.

The admiralty promised further reports as soon as available.

**OTTAWA ORDER
LIMITS OUTPUT
OF MOTOR CARS**
OTTAWA, March 29.—(CP)—Production of Canadian automobiles plants which were not turning out cars before Dec. 31 last year has been limited under an order of the motor vehicle control board published Friday night in the Canada Gazette.

The order says no person who was not manufacturing automobiles in 1940 may manufacture more automobiles of any one kind, type or model, than the number of that particular kind which could be imported under the revenue department's permit from the national revenue department.

In addition, the manufacturer may not make a greater total number of automobiles than the total of all types which he could import under the revenue department's permit from the national revenue department.

Under the War Exchange Control act of 1940, importation of certain automobiles was banned except under special permit. The order says that the government has established quotas for imports, based on the scale of imports in the past.

**T. Eaton Company
Gives \$60,000 To
War Services Fund**
TORONTO, March 29.—The T. Eaton Company, Limited, today contributed \$60,000 to the Canadian War Services Fund. This was announced by Maj. Gen. D. McKee, C.B., national campaign chairman, in addition to the \$60,000 which the T. Eaton Company has donated to the committee a large personal check.

**Report Antonescu
Quits As Premier**
LONDON, March 29.—(CP)—Reuters News Agency quoted an Italian dispatch to the effect that the Romanian premier, Ion Antonescu, had resigned. The dispatch said that the Romanian government had been dissolved. No confirmation of this report was available from other sources.

150,000 NAZIS AWAITING MOVE IN BALKAN WAR

Germans Hold Up Move
Until Situation Has Be-
come Clear

By DANA SCHMIDT
ISTANBUL, March 29.—(RUP)—German troops stationed at 100,000 troops in the southwest corner of Bulgaria in position to strike either southward at Greece or westward at Yugoslavia's Vardar Valley, diplomatic sources said today.

They suggested that Germany would use its troops to settle the political situation in Bulgaria. Bulgarian troops were now aligned principally along the Turkish border, they indicated, and that the Germans could strike anywhere in the Balkans.

Turkish newspapers continued to state that Germany was unlikely to attack Yugoslavia at once because it did not Yugoslavia would combine with the Axis powers against the new Yugoslavia, it was said, British forces in the Near East, were ready to go to Yugoslavia and create a Balkan front.

Turkish newspapers continued to praise the Yugoslav spirit which they indicated was a factor in the new government would not be deterred by the Axis powers, but would merely permit it to be a factor in the future.

Benjamin Franklin, vice president of the Turkish parliament, said in a lecture last night: "We do not want to go to war, but there is one condition, namely, that our liberty and independence must be respected if they are not respected the new east will be a Balkan front."

He said that the Axis powers of a possible Turkish-Yugoslav-Greek defensive alliance. The Hungarian cabinet met last night and Ben G. George, British minister, the Hungarian minister to Yugoslavia, arrived by special airplane at Budapest to consult his government.

**300 Europeans
Taken At Harar**
NAIROBI, Kenya, March 29.—(RUP)—South African troops captured 300 Europeans and today 300 Europeans, including 100 Africans and 100 Europeans, were taken at Harar, Ethiopia. The clearing up of irregulars in the area is progressing, and more soldiers are coming to the command post.

Italian Ship Sunk
ATHENS, March 29.—(AP)—The Italian ship *Albatros* was sunk Friday by a 5,000-ton Italian supply ship *Carina* was sunk March 29 in an attack by the British submarine *Triton* on a heavily escorted Italian convoy.

Canada's Wheat Will Be Needed Before War Ends Declares Western M.P.

By C. R. BLACKBURN

OTTAWA, March 29.—(CP)—Confidence that all the wheat that can be produced in Canada will be needed "and needed badly" before the war is over was expressed in the House of Commons by Gordon Ross (Lib., Moose Jaw) a wheat grower in western Canada for 30 years.

Mr. Ross spoke yesterday after a session in the debate on agriculture estimates. While he said production would not meet ultimate demand he did not oppose the government's proposal to set wheat acreage this year by 3,000,000 acres.

But member Liberal, H. A. MacKenzie who represents the Ontario riding of Lambton-Kent, definitely opposed the proposal to bonus western farmers at \$4 an acre for leaving wheat acreage in summer fallow this year, and at \$2 an acre for new wheat lands to come grain.

He would not bonus western farmers for doing what they intend to do, but he would have them paid a price that would be in a parity with other farm products. He said the amount of wheat of government estimates can be maintained.

He said they should receive a price that would not only pay for production but enable them to maintain a reasonable standard of living.

Agriculture Minister Gardiner, who had been endeavoring for three days to put through a supplementary estimate for \$33,000,000 to cover cost of the crop reduction plan, answered claims by Ontario members that a bonus on coarse grains would be the worst method of raising crop prices.

He said that if it were found westerners were in a position to increase livestock production as a result of the bonus, steps would be taken to equalize that situation.

No progress was made and the debate may continue Monday, if Finance Minister Hillyar's supplementary appropriation bill for 1940-41 is disposed of.

Mr. Hanson claimed Canada's wheat problem began immediately after the First Great War when former importing countries decided to make themselves self-sufficient.

In February, 1930, after four months of depression and with the 1929 wheat crop still unsold, the government headed by the present prime minister had described the situation as seasonal slackness.

"What a vision!" he exclaimed. "How characteristic of him! Trying the old game of juggling the Canadian people into a series of false security."

He again urged that this proposition be considered by the government to "give some of our abundance to our kith and kin across the ocean."

He said that last year he had urged upon the government the idea of an outright gift of 100,000,000 bushels of wheat to Britain.

"I am bound to say that I never thought I would be giving wheat and wheat flour to the Mother Country," he said. "Has the government realized that? I wonder what our reaction will be to that. We cannot say 'no'."

He said that last year he had urged upon the government the idea of an outright gift of 100,000,000 bushels of wheat to Britain.

1941 McLaughlin-Buick

Incorporating such advanced features as aerodynamic streamlining, "Fireball" engines developing 115, 125 and 165 horsepower, and new Compound Carburetor on Super, Criterion, Roadmaster and Limited models, McLaughlin-Buick for 1941 is presented in five new three wheelers, and offers a choice of 22 different body types. Illustrated above is the Special six-passenger, four-door sedan, built on a 12-inch wheelbase.

U.S. ASSURES YUGOSLAVS OF FULL SUPPORT

WASHINGTON, March 29.—(AP)—President Roosevelt gave full recognition Friday night to the new Yugoslavia government headed by the boy king, Peter II, and sent him a message encouraging him to resist axis aggression.

He said that the relations between your government and the government of the United States may be mutually beneficial in the support of those principles of liberty and tolerance cherished by the Yugoslav and American people.

Mr. Roosevelt's message, made public by the state department, also asserted that he wished to join with the American people in the expression of our sincere and genuine wishes for the health and well-being of your majesty and for the freedom and independence of Yugoslavia.

The message drew the whole weight of the government behind the encouragement given to westerners by the new Yugoslav regime by Sumner Welles, undersecretary of state, who virtually promised that.

Approximately 50 per cent of that was provided by taxpayers of Ontario where 40 per cent of the farm-owners are paying interest on mortgages, he added.

Mr. McKenzie said the agricultural situation should be considered as a whole and this particular aspect of it should be submitted to the common agricultural community.

He said that last year he had urged upon the government the idea of an outright gift of 100,000,000 bushels of wheat to Britain.

Rugged Young Canadians Learn Tricks, Technique Of Mobile Field Warfare

By G. M. BATEMAN

WINNIPEG, March 29.—(CP)—Rugged young Canadians undergoing training at army camps in Manitoba are learning all the tricks and technique of mobile and open country warfare developed and perfected by their comrades on active service in the Metherland.

Since 1939, more than 100,000 Canadian soldiers have been trained in the tactics of mobile warfare, from varying distances.

When the weather permits, 50 men from the infantry training centre learn to navigate a stream carrying rifles, machine guns and ammunition. At first they do this exercise in swimming suits but later will carry out the manoeuvre in full battle dress.

During the coming summer hundreds of recruits will receive instruction in the tactics of mobile warfare, from varying distances.

They were returned to Canadian authorities and sent back to Old Fort Henry prison at Kingston in the ground they had never actually entered United States.

Quebec Province Increases Grants To Needy Mothers

QUEBEC, March 29.—(CP)—Hon. Edgar Bechete, provincial minister of labor, announced Friday the provincial government plans to increase next April 1 the grants paid to needy mothers of the province.

The minister said that the government will pay a monthly allowance of \$5 instead of \$2.50 to the mothers for each of their children under 18 years of age. The allowance will be paid in addition to the regular monthly pension of \$20 or \$25 which the government pays to the mothers.

He said that the government will also pay a monthly allowance of \$5 to the mothers for each of their children under 18 years of age. The allowance will be paid in addition to the regular monthly pension of \$20 or \$25 which the government pays to the mothers.

4 Missionaries Face Trial In Japanese Court

TOKYO, March 29.—(AP)—The United States consul general, O. G. Griffith, stationed at Keijo, Korea, was reported today making every effort to aid four American missionaries arrested by the Japanese on charges of plotting a conspiracy in Korea against Japan's war in China.

Griffith reports, however, that the four would be placed on trial. Griffith at first was reported among those arrested but he never was detained in the roundup.

A Dr. Clark and eight women missionaries were seized by authorities but were released after questioning in Korea against Japan's war in China.

Those still held were reported to be Dr. D. S. Lowe, Miss Alice M. Bates, Herbert P. Bates and Otto de Camp. Some of those held or questioned were said to have been British.

At Winnipeg this winter, fifty men at a time remained out of doors for three days and three nights, prepared their own shelters from snow and pine logs, and learned to travel over rough country. One hundred men at a time also took long route marches on snowshoes.

They have 200 mm. training as tradesmen. Said Major J. S. McMahon, of Military District No. 10 headquarters. They attend night classes at Dominion Provincial Technical schools or at Winnipeg Technical schools.

With The Railroaders

C.P.R. Rail News

March 31 marks the retirement of Ole Lundquist, section foreman, C.P.R. at South Edmonton, following forty years service with the company, which began when Mr. Lundquist entered the employees ranks as a track laborer at Field, B.C. in May, 1897.

He was appointed section foreman at Kintorey and worked there until moving to Jaffray and Cranston shortly after and was transferred to the Edmonton Division in May, 1905 as section foreman at Westwood. On May 1, 1928, Mr. Lundquist was appointed to the foreman position at South Edmonton where he has remained ever since.

He worked as acting roadmaster and extra gang foreman during his long service with the railway company and leaves the ranks with a host of friends who wish him success and happiness in his future leisure time. A dinner in his honor will be held at the El Polo Inn, South Edmonton, on Saturday, March 29 at which railway associates and friends will meet to honor Mr. Lundquist on the occasion of his retirement.

Long Service

OLE LUNDQUIST, section foreman of the C.P.R. at South Edmonton, who retires Monday after years of service with the railway. With Mrs. Lundquist and their youngest son Victor, he will leave immediately for Vancouver where he will reside. Still 61, Mr. Lundquist is a powerful man and, as a young man, could carry a 300-pound rail on his shoulders.

He is quite at the Hudson's Bay Company, Edmonton.

The next and final meeting for this season of the C.P.R. Adult Education Train Rules study group will be held in the club room over South Edmonton station on Monday at 8 a.m. Assistant Superintendent S. R. Lamb and Chief Dispatcher R. J. Collins will be in charge of the train rules discussion, while Superintendent J. J. Mackay will be chairman for the meeting. During the evening members present will have an opportunity of saying goodbye to their instructor.

J. W. Delley, C.P.R. conductor, has been appointed delegate to the Order of Railway Conductors' convention to be held in Chicago next May.

Employees in the C.P.R. Edmonton station were given to learn of the passing of Dr. Clarkson, janitor, on Wednesday night last. Mr. Clarkson was at his duties in the building on Tuesday. He was well liked and respected by all his fellow workers, who expressed regret at his passing. Sixty years of age on the 26th of February,

SPEAKER TELLS OF EXTENSIVE C.N.R. PROGRAM

Mr. Clarkson entered the company's service on July 1, 1926. Of a genial and friendly disposition, Mr. Clarkson will be missed by all who knew him, and sincere sympathy is expressed to his family in their loss.

Wedding bells recently chimed for Stewart Woodland, of the Canadian Pacific Express Company, Edmonton, and his bride, the former Miss Geraldine Barrett of Edmonton. The newlyweds are at present on a honeymoon trip and will reside in this city on their return.

Mrs. M. W. Hill of the C.P.R. general superintendent's office, Calgary, has been visiting her daughter, Miss Jean Hill, in Edmonton, for a few days.

On the National Lines

J. E. Debs, member of the publicity department at Montreal, died in hospital last Saturday. Mr. Debs has been in England and before joining the C.N.R. worked for the Toronto Star. He is survived by his widow.

Miss O. Johnson, daughter of Engineer and Mrs. Johnson, is a patient in a city hospital where she recently underwent an appendectomy operation.

Congratulations to Mr. and Mrs. J. Morgan on the birth of a son on Thursday.

J. Delena, carman's helper, is a patient in a city hospital.

R. Bainbridge, carman, is in hospital.

Mr. McDonald, carman, is visiting at Orilla, Ont., with his mother who is ill.

Mr. Dally, former car apprentice now with the R.C.A.F., is in a city hospital where he recently underwent an appendectomy operation.

TO JOIN HUSBAND

Mrs. Morgan, wife of W. Morgan, formerly with the boarding car department and now serving with the R.C.A.F., will leave early in the week to join her husband.

Mr. Roberts, former stationary foreman of Jasper, has been transferred to the coal dock at south shops.

Mrs. McConachie is visiting in Calgary this week with her daughter, Miss Phyllis McConachie.

Congratulations to Mr. and Mrs. A. Duke on the birth of a son at Sudbury, Ont. Mrs. Duke was the former Miss Helen Breckenridge of this city.

Cold Silence As German Minister Attends Ceremony

BERLIN, March 28.—(AP)—German Minister Viktor Von Hergen attended King Peter's celebrating ceremony in the Balkan Cathedral Friday amid a cold silence which was in marked contrast with the frenzied ovations accorded the British, American and Russian diplomats.

McKenney On Bridge

By AM. E. MCKENNEY, American Card Authority

Recently I met for the first time Tom Stoddard, organizer of the Pacific Bridge League on the Pacific coast. Stoddard is now from California to New York for the teachers' convention—and, by the way, he had a harrowing experience on the way, as he was one of the passengers on a plane that crashed at St. Louis. Undaunted, however, after they dug him out of the debris, he hopped the next plane.

The Edmonton Bulletin's Guide To Spring

BUILDING and REMODELING

Properly Installed Plumbing Most Important Construction Item In Modern Home Planning

An important factor in the Canadian standard of living, and one of the basic items in modern home construction, is good plumbing. There is probably no other part of home equipment which involves such constant use.

There are two parts to the plumbing system, the visible part, namely the fixtures in the bathroom, kitchen and laundry, and the invisible part concealed in the walls and under the floors.

GOOD FIXTURES

Good fixtures are of course essential, and today, thanks to modern methods of construction and improvements in design, there is a wide variety of good plumbing equipment available for the home builder of limited income. The efficient concealed bathroom fixture, and ingenious labor-saving kitchen sinks are a far cry from those installed even a decade ago.

PROPER INSTALLATION

While the fixtures are more interesting and more glamorous than the piping, even the best plumbing fixtures will not perform adequately unless they are properly installed and unless the piping which supplies the water and looks after the waste, has been properly laid out.

Certain defects in the supply piping will result in an inadequate supply of water at the fixtures. An inefficient flow of water from the faucets of the lavatory, bathtub or kitchen sink is not only a serious inconvenience, but may indicate a condition potentially menacing to health. Under certain conditions, negative pressure in the supply lines may permit air passage through a cross-connection, causing pollution of the pure water with sewage.

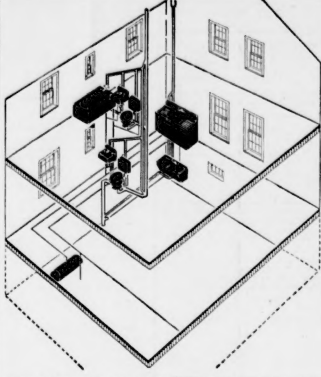

Among the factors which should be taken into consideration in the installation of the piping system, therefore, are the diameter and character of the pipes, the type of water, and the water pressure.

MOST DURABILITY

Owing to the fact that most of the piping in modern home piping is laid under the floors, making repair work costly, the pipe industry has for many years carried on a comprehensive research program designed to produce the ultimate in durability at nominal cost. Similar progress has also been made in the development of valves and fittings.

As a good plumbing system is not a packaged article which can be bought over the counter, but requires knowledge and skill for proper assembling, installation only by an expert is recommended. Therefore, the materials are delivered for the convenience of a building contractor, the plumbing contractor determines from his own shop drawings the exact location of every supply, waste and vent line, the diameter of all the pipes, the location of the valves and the location of every fitting and valve. The experienced master plumber is the only craftsman who can be relied upon to do an expert job.

Young Englishmen once wore handkerchiefs edged with gold in their hats as gifts from young women.

Concealed in the walls and under the floors of the average low-story house is more than 200 feet of pipe. Proper design and correct installation of the invisible part of the plumbing, as well as quality fixtures, are essential to ensure economical and efficient operation.

GREEK PREMIER THANKS PRIME MINISTER KING

OTTAWA, March 29.—(CP)—Prime Minister Mackenzie King has received a message from Prime Minister Alexandros Kostas of Greece in reply to a message he sent on the occasion of the anniversary of Greek independence last Tuesday. The Prime Minister's office announced Friday night.

The Greek Prime Minister's message said: "Deeply touched by warm wishes which the government and people of Canada have kindly expressed on the occasion of the anniversary of our independence, I beg you in the name of the Hellenic people to accept our hearty thanks."

"We in Greece are ever following with the greatest possible admiration the untiring patriotism of brilliant leaders of arms and valiant conduct of Canadian warriors of their glorious cause."

Mr. King's message last Tuesday read:

"On this occasion of the celebration of the independence of the Hellenic nation, the government and people of Canada send you their warmest congratulations and best wishes. The cause of human freedom, which owes so much to the glorious history of Greece, continues to be ennobled by the magnificent deeds of her heroic people."

Air Commodore Godfrey Will Go To East Command

VICTORIA, March 29.—(CP)—Western Air Command announced Friday night that Air Commodore A. E. Godfrey, M.C., A.P.C., V.D., A.D.C. has been transferred to Headquarters of the Eastern Air Command. The transfer is temporary, headquarters here stated.

Group Captain C. R. Simon, senior air staff officer, has assumed command here in the absence of Air Commodore Godfrey.

SMALL HOUSES GET HOT WATER HEATING PLANT

Revolutionary Improvements Made In Systems By Industry

With the possible exception of a leaking roof, nothing about a house will cause so much serious dissatisfaction as a heating plant that cannot be depended upon to deliver the required amount of heat when and where it is needed, or a plant which is expensive to operate.

The problem of economical and efficient heating during the long months of our Canadian winter has always been a considerable one for the average small home owner. In recent years, however, the development of an efficient heating system which will fit the restricted heat and space requirements of low cost homes has been one of the major objectives of heating engineers.

Hot water heating, as before, is at the most popular, but the heating of small homes, but the hot water heating plant of today has little in common with its forerunner, even in appearance. The new small home heating plant is a complete unit, incorporating improvements made in the entire hot water heating system, from boilers and radiators, controls and valves, to the method of installation. It is to give the home owner greater personal comfort at lower cost.

MOST FAVORED

The unit most favored today is the standard square sectional type, thoroughly insulated under eaveless steel jackets, designed for greater economy and efficiency. It is adaptable for any type of firing so that advantage may be taken in any locality, of the least expensive standard form of fuel.

In the earlier systems, several manholes were required to carry the water from the boiler to the various radiators and back again. In the new system, depending on gravity to activate the flow of water, large pipes were needed and large sized radiators. In order to facilitate the flow of water, today's hot water heating system, it is no longer necessary to wait for gravity to move the water. Mechanical circulators send the hot water racing from the boiler to the radiators. The old system, the temperature of some radiators may have been from 15 to 20 degrees below the boiler temperature—much of

the heat being lost to the slow transit from the boiler to the radiator. Nowadays, all radiators can be within 3 to 10 degrees as hot as the boiler.

DECREASE IN SIZE

The mechanical circulation of water, combined with the increase in temperature, has permitted a considerable decrease in the size of piping and radiators. The old type of radiators, aside from being unsatisfactory in appearance, took up too much room to be practical in the small home. Today's compact models can be tucked away beneath windows where they are in the best position to combat incoming cold air.

Moreover, it no longer requires the use of several large main lines to feed these radiators. Planned layout of the piping system, plus improved circulation, makes it possible to have the entire heating plant inspected and put into first class condition for the winter first season, suggests the Institute.

Lincoln's famous advice: "Don't swap horses in the middle of the stream." Don't change heating contractors' advice to the home owner. "Don't change heating plants in the middle of the winter." Early fall is now too late to have the entire heating plant inspected and put into first class condition for the winter first season, suggests the Institute.

Carol Permitted To Enter Mexico

MEXICO CITY, March 29.—(AP)—

Applications from former King Carol of Rumania and Madame Magda Lupescu to enter Mexico have been approved, the immigration department said Friday. Carol and Madame Lupescu probably would leave Lisbon for the United States, the department said, and then come to Mexico. It was not known whether they planned to remain in Mexico or continue on to Central and South America.

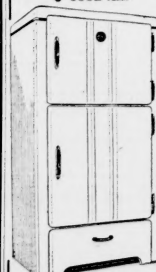

Dogs For War

WASHINGTON, March 29.—(AP)—

The newest military wrinkle in Germany is selective service for dogs. Commanding officers of units said Friday German newspapers were carrying a notice in the German press that "regular dog military service" under penalty of fine and imprisonment.

Germans Will Use Armored Fighting Units If Invasion Of Britain Is Attempted

By ROSS MUNRO

SOMEWHERE IN ENGLAND, March 29.—(CP)—

Lauding Canada's decision to send armored units overseas, Gen. Sir Allan Brooke, commander-in-chief of the home forces, told 60 Canadian officers yesterday that the possibility of a German invasion of England is "by no means gone, and still remains."

"If an invasion takes place, it will not only be by infantry but by armored fighting vehicles which are not so easy to cope with," he said in a short speech at the Canadian Junior war staff college.

Li-Gen. A. G. L. McNaughton, Canadian corps commander, and a brigadier from the corps were present.

LIKE WRESTLING MATCH

"Once you get an armored fighting vehicle force free in the country it is hard to catch and dispose," Gen. Brooke said. "The only way to meet it is with another armored force, which we are developing rapidly. The situation is actually growing much healthier. And thank God that you are bringing armored formations overseas."

The general, who directs the defense of the United Kingdom, compared Hitler to a man with whom Britain is wrestling.

"He is trying first for a foothold in the Balkans, but yesterday he slipped on the orange peel in Yugoslavia," Gen. Brooke continued. "By bombing our western ports and waging submarine war on

Looking them Over

JACK KELLY

THE other night Albin Simon stared at Joe Louis for 15 rounds after the experts from Tin Roy Alley had declared he would last not more than four or five rounds at the most. Since Big Abe crashed them out the boys have done nothing but pour out streams of stories insisting that Simon is still a hum and making no bones about the fact that they also suspect Louis of being a bum because he did not pump him off in the schedule they had set.

This modern school of fight writers saw nothing courageous in Big Abe's surprising stand against the full power of Louis' terrific hitting. Instead they explained it cynically by claiming that he was too dumb to be afraid—just a big lug like some prehistoric critter whose nervous system was so poorly developed that if you had clipped a foot or two off its tail, the brain would have felt no pain for a day or two.

You don't have to be much smarter than some of those dinosaurs to see that some of these fight writers are a great deal more concerned with protecting their own reputations than with honestly giving Big Abe the credit he earned.

If you can name any animal, with either two or four legs, that is too dumb to be afraid, it is time to take a good look at it. Apparently Big Abe is not gifted with a gift tongue to talk fast and impressively and is the type that does not prattle about his emotions, but it can't conceive of him not knowing what sort of pain Joe Louis would probably inflict on him.

The Fitzsimmons-Corbett Story

In my fight life, I have a copy of the National Police Gazette of March 27, 1887, that contains the story of Fitzsimmons over James J. Corbett at Carson City, Nevada, on March 17. It came from cover to cover with details of the title scrap and mightily interesting reading it makes. It is also very illuminating.

The blow-by-blow description of this fight sounds no different than the blow-by-blow story of the Louis-timer beat, by the way. It indicates that Carson City was a lot less on that chilly St. Patrick's Day than Detroit saw the other night.

Corbett punches made Fitz nose and lips bleed rather freely, but inflicted no other damage, that is mentioned. After the sixth round, Corbett was pretty well washed up.

In the 14th round Fitz landed a stiff blow on Corbett's neck that was the beginning of the end. Corbett went down a few seconds later after a "terrible jab on the stomach." The story continues: "Corbett threw up his hands and to his knees, with an awful look of agony on his face. He rolled up and lay prostrate on the boards while the time-keeper counted ten. At the word 'ten' Corbett made a last effort and fairly staggered himself up to his feet. He rubbed at Fitzsimmons' head and to his nose, but before George Rigg stepped in the middle of the ring and declared Fitzsimmons the winner."

The fight was headlined throughout the United States as a "terrible battle." No one ever dreamed of regarding that Corbett was a bum and the fight was never considered as one of the classic fights of the ring. I'll bet a couple of years ago that if that bout could be lifted from 1887 and re-staged in Madison Square Garden next week it would take a terrific roaring from the boys who sit in the press row.

It's Just the Satisfaction Point

Actually sport writers shouldn't be blamed for their cynical attitude any more than anyone else. It is just a result of conditions today. The full forces of modern science, ingenuity and promotional skill are used continually to produce sensational entertainment. A 15-year-old kid of today has seen more impressive and sensational things than full grown men of 1880 ever saw. Furthermore, prize fighting was just becoming legal in many places about that time and the public greeted it with open arms. Today nothing is so common as to see a prize fighter who has been a fighter of enthusiasm among the audience.

Then, too, the post boxes greater the farther it fades into time. In the same issue of the Gazette that carried the Fitz-Corbett fight was an interview with Jim Mac, the former world champion who was going his about 1860 or '70.

"Good Lord, I'm not fighting any more, that's what it isn't," Mac declared when asked about his Corbett fight compared with fights of his time. "Fighting is an amusement. Just watch one of our boys. A lot of people about an 'breakin' away' at one time and then they stop and it's all over. In 15 minutes they're both up at the bar with a whiskey and a couple of eggs after the fight. I've seen a lot of them. Sometimes I had such bumps on my head I couldn't put my hat on for three weeks."

Does that blow by old Jim sound as familiar to you?

Dodgers and Yankees Seen As World Series Opponents

By GAYLE TALBOT

TAMPA, Fla., March 29.—(AP)—The really smart move at this point would be to take a run-out powder on the National League, pleading illness from overwork and pointing out that the Bill of Rights as good as says no man can be forced to make a fool of himself.

Either that, or wait the easy way and pick the Cincinnati Reds to wear their third straight pennant behind one of the finest pitching staffs ever assembled. A fellow at this point would be assured of some excellent company in the event the world champions did a Bredie.

But this smarter move is made of sterner stuff or has been slightly altered by the sun, and he knows. He definitely knows he is in the Yankee Stadium, not the Yankees Riverdale Vale last night 15-3.

CANYON, Tex., March 29.—(AP)—Texas State College had the tallest crowd in the country at the game of the season just closed. The players averaged 6 feet 6 1/2 inches.

THE best the Gulls can do is to Washington, Radio City, and the Yankees. The Gulls need them. They are at least a tie by the Yankees. The Gulls need them. They are at least a tie by the Yankees.

Action From Stanley Cup Battle Fronts

The upper panel shows the Toronto net just after Schmidt of Boston had rifled the puck home in the third game of the Leaf-Brun series. The game that Toronto eventually won 7-2. Goals: Tru Broda was goal for the Leafs and Boston. No. 17, is parked in the Leaf goal mouth. The lower panel shows Sprague Earl Gardner of the Montreal Canadiens saving brilliantly on a shot fired by Johnny Chief of the Chicago Hawks. No. 19, the lad who used to wear E.A.C. hockey here. Hawks won this game 3-2 to eliminate Canadians from the Stanley Cup chase.

Lethbridge Makes Last Ditch Stand: Wings At Chicago, Leafs Invade Boston

CALGARY, March 29.—(CP)—Both Trail Smoke Eaters and Lethbridge Maple Leafs indulged in light work today in preparation for the fourth game of the C.P.A. inter-provincial series, scheduled at the Arena Saturday night.

Happy over victories at Lethbridge and Calgary after being held a scoreless draw on their own ice, the British Columbia champions are hopeful that they will win the playoff Saturday night, which would enable them to enjoy a few days rest before taking on Regina Rangers at Port Arthur Saturday night.

Realizing that they get a couple of bad games out of their system, Maple Leafs are being treated to a victory during the fourth game and forcing a fifth game on their own ice at Montreal, where the teams will perform before the usual Saturday night audience.

The teams will perform before the usual Saturday night audience. The teams will perform before the usual Saturday night audience.

SWIFT CURRENT CAN WIN TITLE TONIGHT'S GAME

NANAIMO, B.C., March 29.—(CP)—Nanaimo Clippers will be fighting with their backs to the wall when they meet Swift Current Indians here tonight in the fourth game of their best-of-five series for the Western Canada Intermediate Hockey championship.

Clippers held the Indians to a 1-1 tie in the series opener here last Saturday night, but Swift Current captured the second game, Saturday, by scores of 3-1 and 2-1 respectively and need only to hold tonight's contest to a draw in order to take the trophy home.

Goalie Steve Buntick has been the mainstay of the Indians in the series, providing perfect protection for the Swift Current net.

Clippers have had a fair share of the play in all three games, actually out-mustering Indians most of the time. In the third game Wednesday night, they were unable to find a hole through Buntick's net.

The Indians' goalie turned aside a shot during the Wednesday night game while goalie Mac Beattie in the Clippers net handled only 1.

Costly Kicker

NEW YORK, March 29.—Carlos Cervello, centre forward of Bristol Bees, scored champions who played here, was purchased from a Uruguayan club for \$45,000.

MAURICE HUNTER, Pro Manager

Mound Power, Iron Infield Make White Sox Dangerous

By JACK GUENTHER

PASADENA, Calif., March 29.—(RUP)—The best balanced pitching staff in the American League and one of the strongest infields in baseball are the assets on which the Chicago White Sox rest their bid for world series glory in 1941.

Starting their eighth year under the leadership of James Joseph Doherty, the man who lifted them from the cellar to the first division, the south-east team is ready for a serious challenge. They have finished their third season Doherty coach, and last year they were fourth, just eight games away from the top. With just a little luck, they figure to be chosen next year.

On the surface, Chicago changed little over the winter. The most important shifts were infielder Billy Kunkel, moved from second to first base, and pitcher Johnny Hogue, moved from Cleveland, Ohio, to Chicago. Kunkel and Hogue were not more than four months away from being likely to stay. Yet, while the changes have been few, Doherty believes they have been important.

KEEPS OPENING

From position to position, the team appears strong. The playing personnel will be made up of nine pitchers, seven infielders, five outfielders, three catchers. Although he has no intention of returning to third base, Doherty will keep him on the active list, so that he may take on another player later in the season if the normally early hitting is good. Five men who won a total of 63 games, they are the nucleus of the staff. They are veteran Ted Lyons, who was used one year; John Rigby, who led the team with 21 triumphs last year; Thornton Lee, a reliable leader; Bill Doherty, and Edgar Smith, who turned in the best performance last year with 14 wins and nine losses.

Rigby is the only doubtful quantity, since he may be called momentarily for service in the army. But back of him is Johnny Hogue, who has pitched 100 games in the last two years and has a 24-10 record. Hogue is a right-handed pitcher, and he has a 24-10 record. Hogue is a right-handed pitcher, and he has a 24-10 record. Hogue is a right-handed pitcher, and he has a 24-10 record.

ANOTHER GROOM

Appleton will be spelled by John Hogue, brought along from the farm in Greenville, S.C., who won 10 games with Chicago last year.

And Jack Hogue, who won 12 games last year with Cleveland, Hogue had a case of elbow last year and Hogue was hurt on a final try from Waterloo.

In the infield, Doherty hasn't settled on his second baseman yet. Don Kunkel will be back at first, but Kunkel at short and Don Kunkel at third. Kunkel's brother, Don Kunkel, will be at short and Don Kunkel at third. Kunkel's brother, Don Kunkel, will be at short and Don Kunkel at third.

The catching will be done by Mike Trout, who has been with the team for a long time. Trout is a right-handed catcher, and he has a 24-10 record. Trout is a right-handed catcher, and he has a 24-10 record. Trout is a right-handed catcher, and he has a 24-10 record.

Outfielders will be done by Mike Trout, who has been with the team for a long time. Trout is a right-handed catcher, and he has a 24-10 record. Trout is a right-handed catcher, and he has a 24-10 record. Trout is a right-handed catcher, and he has a 24-10 record.

CLANTA Bosses

SANTA BARBARA, March 29.—(RUP)—Clanta, who had a whirl in the major as a first baseman, will manage the Santa Barbara club, operated by the Clanta Brothers, in the new California State League.

Edmonton Riders Will Stage Gymkhana On April 9 To Aid War Services Drive

EDMONTON horse lovers and society will contribute to the current drive for War Savings funds by staging a gymkhana at the Edmonton Arena on the night of April 9, final night of the Horse Show. The event is being sponsored by the Edmonton Saddle Club assisted by the Edmonton Riding Club. The committee organizing the event are headed up by Mrs. W. R. May, president of the Edmonton Saddle Club.

Entire proceeds of the ticket sale will be turned over to the War Services drive without deductions for anything. The city is donating the Arena, lights and tickets free. Active service units will provide the staff for the show while the saddle clubs will provide the horses, their care and feed.

In acting with the times and the spirit of the show, these funds will be on hand—Kilgus, 49th and the Bugle Band.

The program offers all the modern gymnastics events plus several added features. One of these will be a performance by a five-gallop band, something new in the city.

Following is the detailed program: 1. Ladies' saddle horse show. 2. Ladies' dressage. 3. Ladies' dressage. 4. Ladies' dressage. 5. Ladies' dressage.

Radio Station CFRN Grows To Powerful Unit

Broadcast Depot Gets Boost to 1,000 Watts: Moves to 1260 Channel

Radio Station CFRN made its debut on the morning of November 1, 1931. Residents of Edmonton and northern Alberta had been subjected to such a number of changes in the radio picture in the city around that time, that for several weeks they weren't quite sure whether CFRN was CFTI, or whether the Sunwapta Broadcasting Company was in the newspaper business, or the Magee and McRae block. Remember?

The CFRN name established itself. Starting as a small voice, Edmonton, now, however, made a name for itself in short order, and came to be looked upon as the community station, with every justification for its existence.

With H. F. Melan as business manager, and G. R. A. "Dick" Dick as the helmsman, CFRN has built and sustained Edmonton's

first radio station and has grown to become the most powerful unit in the city.

Under the terms of the recent Ottawa Conference, 1939, CFRN is now a clear class A station, free from interference by other stations.

CFRNs antenna and ground system is equipped to handle the increased power of the new frequency.

Bus Drivers Strike Ties Up New York Transportation

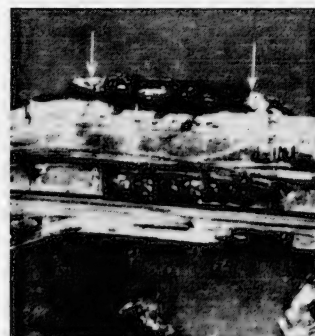

The Great Lakes-St. Lawrence Project is a major engineering and construction program aimed at improving navigation and power generation in the Great Lakes region. The project involves the construction of a series of locks and canals, including the International Rapids Test, the Welland Canal, and the Soulanges Canal. The project is estimated to cost \$266,000,000 and is expected to be completed by 1945. The project will allow for the direct waterway route for Canadian grain destined for foreign ports, which will significantly reduce the cost of transportation. The project will also provide for the development of hydroelectric power in the International Rapids area.

THIS CURIOUS WORLD
T.M. REG. U.S. PAT. OFF.

NATURE'S FILLING STATIONS

MAN CANNOT GO MANY DAYS WITHOUT FOOD AND DRINK...AND TRAVELERS ON UNCHARTED PATHS HAVE FOUND NATURE'S FILLING STATIONS IN MANY OUT OF THE WAY CORNERS OF THE EARTH.

TINY FUNGUS PLANTS HAVE SAVED THE LIFE OF MORE THAN ONE NORTHERN TRAPPER. A STEW OF THESE UN-APPETIZING OBJECTS WILL SUSTAIN ENERGY FOR LONG PERIODS.

BEFORE THE DAYS OF REFRIGERATION, SAILORS TURNED TURTLES ON THEIR BACKS ON SHIP DECK AND TOOK THEM ON LONG VOYAGES! IT GAVE THE MEN FRESH MEAT WHENEVER THEY NEEDED IT, AND HELPED RETARD CERTAIN DIETARY DISTURBANCES.

WATER MAY BE HAD FROM THE TRAVELER'S TREE, WHICH CATCHES GREAT AMOUNTS OF RAIN IN ITS TROUGH-SHAPED LEAVES.

BY SLICING OFF THE TOP OF A BARREL CACTUS, DRY DESERT TRAVELERS MAY DIP OUT GALLONS OF COOL, REFRESHING WATER.

COCONUTS AFFORD BOTH FOOD AND DRINK FOR TROPICAL NATIVES IN MANY ISLANDS OF THE SOUTH SEAS.

THE PORCUPINE...SLOW AND WADDLING...CAN BE CAUGHT AND EATEN BY STARVING WOODSMEN WHOSE AMMUNITION HAS GIVEN OUT.

TROPICAL VINES CONTAIN WATER IN THEIR STEMS, AND A TWO-FOOT SECTION WILL YIELD A DRINK OF COOL LIQUID SUFFICIENT FOR THE DRIEST OF WEARY SOULS.

EVEN THE MANNA OF BIBLICAL TIMES WAS, SOME AUTHORITIES SAY, A GUMMY EXUDATION FROM THE TREES, CAUSED BY THE BORINGS OF A SPECIES OF INSECT.

FRECKLES AND HIS FRIENDS
by Blosser
T.M. REG. U.S. PAT. OFF.

HEAVY DATE, MOM...THANKS FOR LETTING ME USE POP'S CAR!

GET HOME EARLY, SON!

GOODNESS, HENRY...I COMPLETELY FORGOT ABOUT YOUR BANQUET TONIGHT...YOU'LL NEED THE CAR!

YES...I CALLED OUT TO FRECKLES, BUT HE DIDN'T HEAR ME!

YOU'LL HAVE TO USE HIS CAR.

THAT HEAR? WHAT WILL THEY THINK SEEING ME DRIVE UP TO MAYOR BEGG'S BANQUET IN THAT THING!!

LATER

I'LL PARK FAR ENOUGH AWAY SO NO ONE WILL SEE ME...AND I'LL LEAVE AFTER EVERYONE ELSE IS GONE!

AREN'T YOU LEAVING NOW, MAYOR?

NO-O-O-O! I'LL STAY AROUND A WHILE!

THE MAYOR JUST STAYED AND STAYED! FOR ALL I KNOW HE'S STILL THERE...I HOPE HE DOESN'T SEE ME!

NO USE...IT WON'T START! I'LL JUST HAVE TO SWALLOW MY PRIDE AND ASK FOR A LIFT HOME!

AND THAT'S THE STORY, MAYOR! CAN YOU TAKE ME HOME?

SURE, HENRY... SURE!

I WAITED UNTIL EVERY ONE ELSE HAD LEFT TRYING TO BUT YOU...NOW I'M CUT-WAIT GLAD YOU WERE STILL THERE!

AND FOR THE SAME REASON! I HAVE A YOUNG SON TOO!
